

Born and raised in New England, but I found the sun in Florida and set up my shop just outside Tampa Bay.

I have studied art and design my entire life, but I am mostly self-taught. Using every resource at my disposal, I have studied the fundamentals of good design, learned the tools of the trade, and routinely educate and challenge myself to be more capable and efficient every day.

I truly enjoy the career I have made for myself over the last 11 years, and am very proud of the work I do. I have yet to take on a project I could not handle, and work very hard to keep that streak going!

Program Proficiencies

Equipment

Acer Predator G1 | Windows 10

Wacom Intuos Pro Drawing Tablet

Nikon d3400 DSLR

Education

University of New Hampshire
Bachelor of Arts
